## Our Story

We at **Space Age Alarms, Inc.** know the stress of protecting your everything you love. Home, family, business... we've been there. We also understand that sometimes we have to make sacrifices for priorities; not being able to dine out as much to afford the rent or cutting back on vacations to pay for your doctor's bill.

**In today's world, safety and security play a large role.** You never know when that old toaster will spark a fire, when carbon monoxide will find its way into your household or when a passerby will decide to go shopping in your home while you're out. These are risks that one should never be willing to take.

*Let us show you what we're all about!*

**We can assure you peace of mind while saving you money at the same time!** Space Age Alarms, Inc specializes in commercial, industrial and residential sales, installation and service. We offer 24 hour Central Monitoring protection, burglary alarm systems, fire alarm systems, CCTV surveillance, carbon monoxide detection just to name a few. We service Westchester, Manhattan, Rockland, Long Island and New Jersey.

So when it comes to priorities, we understand. Take advantage of our **'No Obligation Survey and Estimate'** and see what we can do for you by **"Making Your World More Secure..."**
